Summary

I am a recent Bachelor of Engineering graduate in Computer Science Engineering with expertise in full-stack development, especially MERN stack. Experienced in scalable web applications using ReactJS, NodeJS, Django, and Flask. Passionate about solving complex problems and eager to contribute to your team as a Full Stack Developer.

Skills

- **Languages:** Python, Java, JavaScript
- **Front-End:** HTML, CSS, React.js, Next.js, Bootstrap, MaterialUI, Tailwind CSS, AngularJS
- **Back-End:** Django, Flask, Node.js, NextJS
- **Databases:** MongoDB, MySQL, PostSQL, Firebase
- AI & ML, Azure, GitHub, Docker, Kubernetes

Professional Experience

May 2024 - Present

Emagesoft Private Limited, Bengaluru, Karnataka

- Full Stack Developer

- Developing web applications with React, Next.js, Tailwind CSS, Django, and Django Rest Framework, integrating ML models using Python.

March 2024 - May 2024

Zidio Development Private Limited , Pune, Maharashtra

- Full Stack Developer Intern

- Develop Some real time projects by using ReactJS, NodeJS, NextJS, MongoDB.

Jan 2024 - March 2024

Neubitat Consulting Private Limited , Bangalore

- Full Stack Developer Intern

- Led scalable web app development with WebSocket and Django, enhancing operational efficiency, user engagement, and team success.

Jul 2022 - Aug 2022

Incoders Lab, New Delhi- *Python Developer Intern*

- Completed industrial training in Python programming, developing projects under senior developer guidance.

Dec 2022 - Jan 2023

Education

- B.E / B.Tech, Computer Science & Engineering Excel Engineering College 2020 - 2024
- Senior Secondary (XII, Science Anugrah Narayan College Patna (BSEB board) Year of completion: 2020
- Secondary (X G.D High School Deokund, Bihar (BSEB board) Year of completion: 2018

Achievement

Apr 2022 Sona College of Technology, Salem Tamil Nadu

First Prize Winner

- 30-Hour Non-Stop Hackathon, Sona College of Technology, April 2022
- Developed a project featuring deep learning and computer vision.
- Developed and presented a deep learning and computer vision project.

HackerRank 5-Star rating | [Profile](#) |

- Striving for a 5-star HackerRank Python rating. Diligent practice, concept mastery, and efficient code optimization lead the way. Seeking success through challenges and continuous learning

Project

HelpDesk Ticketing System- | [GitHub](#) |

- Developed using Django; focused on real-time, scalable web application features for efficient issue resolution.

E-Commerce Website- | [Demo](#) | [GitHub](#) |

- Developed a dynamic site using Next.js, MongoDB, and Firebase for a comprehensive e-commerce solution.

YouTube Clone- | [Demo](#) | [GitHub](#) |

- Created using ReactJS and Tailwind CSS; focused on front-end development and API integration.

CarHub Website Project- | [Demo](#) | [GitHub](#) |

- An interactive web application for exploring car models, using Next.js and RapidAPI.

SmartStay: Guest Room Booking System- | [GitHub](#) |

- Utilized HTML, CSS, JavaScript, Bootstrap, Django, and SQLite-3 for a booking platform, designing an intuitive user interface and secure backend to handle reservations efficiently and ensure data integrity.

Certifications and Training

July 2023 - July 2023

Data Analytics, ICT Academy, Tamil Nadu

- Completed a 15-day intensive training course in Data Analytics, focusing on real-world applications and data-driven decision-making strategies.
